AUTO FANS PREPARING FOR GREAT ROAD RACE

Tonopah automobile enthusiasts are becoming greatly interested in the coming state auto race of about 1000 miles which is scheduled to take place on May 28, 29 and 30, by reason of the fact that this town is on the route and will be a division point.

In order to complete plans for the race Tonopah is to take in the great road event a meeting of the local executive committee of the Nevada Highway association will be held tonight at the office of S. R. Moore, at which time committees will be appointed and details worked out concerning minor matters.

Tonopah has been asked to contribute \$300 for the contest, and it was stated officially this morning that the required sum has practically been subscribed.

Two Tonopah boys in the persons of Roy Craig and Al Lorenz will contest for the prizes to be offered. The first prize has previously been announced as \$100, but it was stated today that this amount would not doubt be substantially increased. Mr. Craig will drive a Hudson and Mr. Lorenz will steer a Hupmobile.

An entrance fee of \$50 is provided, and entries can be made by applying to S. R. Moore of Tonopah, or by addressing Carmen J. Wilkie, secretary of the Nevada Highway commission.

The course of the race, which is to be an endurance contest for stock cars, will have its origin at Reno, thence to Lovelock, Winnemucca, Wells, Ely, Tonopah, Mina, Yerington, through Wilsons Canyon to Wellington, and thence to Carson City and on to Reno.

The race, under the rules of the Nevada Highway association, must be confined entirely to roads in this state, and while there may be a slight deviation of the course decided upon later, it is a foregone conclusion that very little change will be made.

Already there are 30 entries to the coming contest, and every driver, unless some accident occurs to put him out of the contest, will stop overnight in Tonopah and also take gas and overhaul his car.

MOONSHINE KICK WAS UNUSUALLY EFFECTIVE

A man whose name is unknown imbibed too freely of white mule last night, and early today engaged in an altercation with a well known resident who worked him over in a general way. The drunk was cautioned by Deputy Chief of Police Daisell to remain in his room, but later being found on the street he was given lodging in the county jail. There he will be allowed to remain for a couple of days to wear off the effects of the jag.

EXPORTS CONTINUE DOWNWARD MOVEMENT

(By Associated Press)
WASHINGTON, D. C., May 11.—The nation's foreign trade continued to slump in the April figures made public by the department of commerce today, which show that exports were \$340,000,000 as compared with \$387,000,000 the month before and \$648,000,000 in April of 1920. Imports last month increased \$2,000,000 over the \$252,000,000 total of the month before, but were \$241,000,000 below the April, 1920, mark.

SHIP DIAMONDS BY AIRPLANE

(By Associated Press)
LONDON, May 11.—Aerial transport of diamonds is contemplated in the Belgian Congo by a mining company in which American interests are largely represented, according to African advisers received here.

The mines concerned are at Djoko-Punda, in the Kasai province. At present the journey by boat along the Kasai and Congo rivers between the mines and Kinshasa, a distance of 500 miles, occupies 35 to 40 days. By the use of airplanes, it is expected to accomplish the trip in about two days.

The present output of diamonds from the Kasai fields is reported to be 250,000 carats a year. Exploitation of the fields began in 1908.

STRIKE SITUATION REMAINS UNCHANGED

There has been no change whatever regarding the strike situation in the mines of this district. Overtures toward a settlement have been made neither by the operators nor the workers, and it is evident that none will be made for the present, at least.

Report was current that the Desert mill at Millers was to be started up, but inquiry at the office of the Tonopah Mining company elicited the statement that it was news there. All kinds of rumors gain circulation concerning the situation, but when traced down they are invariably found to be without foundation.

A number of men brought in to fill the places of the miners who walked out of the various properties were taken by auto yesterday as far as Mina. The start was made from in front of the Eagles' hall, and transportation was provided for most of those who desired to leave Tonopah.

A number of slightly wounded French soldiers have been brought here and other wounded Frenchmen have been brought in from other towns.

It is rumored that a German officer who formerly held a high position in the army has taken charge of the German operations in Silesia, and inter-allied officials here feel there will be serious developments in the next few days unless the Poles indicate an intention to begin withdrawal. In this city there has been arriving a continuous stream of wounded German refugees and the situation has grown more intense.

CHOICE OF HOME NOT PERMITTED BY BOLSHEVIKI

(By Associated Press)
RIGA, May 11.—Choice of a home is not permitted in the land of the bolsheviks, according to persons reaching here from Russia. Everything belongs to the government which assigns living quarters.

Special barracks have been assigned to persons from America as the soviet authorities consider them unreliable rebels that must be kept apart from others. Everybody knows these "Americans" by their sad faces and dismal silence. They do not answer if spoken to in Russian, but their faces brighten if some one appears who knows English, and especially the American vernacular.

"Don't you speak English?" is their first question, followed quickly by the inevitable second: "Is there any way to get back to America?" But there is no way out, for Russia is locked from within.

Mr. Glass is thinking of offering a bonus of some kind in order to induce the lovelorn to jar loose from their decision to remain in single blessedness.

TRANSPORTATION BY AIR RAPIDLY GROWS IN EUROPE

Negotiations are now nearing completion for an airway from Berlin via Riga to Moscow, and when this service is completed it will be possible to travel by air from London to Moscow, a distance of nearly 2000 miles.

Berlin already is connected with London by the Dutch service through Amsterdam. The Dutch branch also has inaugurated service between Paris and Amsterdam.

The existing London-Paris service connects at Paris with the airway to Warsaw which goes by way of Strasbourg and Prague.

The Franco-Rumanian Air Service company, which is responsible for this airway, has obtained concessions from the Austrian and Rumanian governments and hopes shortly to open an airway that will connect London through Paris with Constantinople.

The discovery of radium enriched many people throughout the world. It has been estimated that its use during the war saved the lives of not less than 50,000 wounded men. Notwithstanding the fact that Madame Currie has devoted more than half of her 53 years to the study of radioactive substances, she is a comparatively poor woman and lives when at home at the Institut Currie in Paris on the salary of a teacher at the Sorbonne.

"I gave my secret to the world," she declared. "It was not to enrich anyone. It was for all people."

The reply states Germany adheres unconditionally to the second.

(By Associated Press)
WASHINGTON, D. C., May 11.—Administration officials expressed satisfaction over the decision of the German government to accept the reparations terms of the allies. It is known that an invasion of the Ruhr valley by the allied forces would have been regarded by the United States with deep concern.

American government economists appeared to be convinced of Germany's ability to meet the obligations imposed and they professed to see in her decision promise of an economic revival that would cause a happy reaction throughout the world. With the indemnities question out of the way, marked relief was shown and it was indicated the state department expected to proceed more rapidly with consideration of the numerous problems connected with the development of its foreign policy along general lines of insistence upon equal support and unity and recognition of American rights throughout the world.
